Health Professions Press. Paperback. Book Condition: New. Paperback. 480 pages. Dimensions: 8.9in. x 6.2in. x 1.3in. Health services management students need more preparation than ever to solve the problems they will confront in the increasingly complex health services environment. *Cases in Health Services Management*, Fifth Edition, presents 28 challenging cases (10 new to this edition) that address pivotal issues students will encounter as administrators and managers: quality improvement, strategic planning, ethical dilemmas, organizational dynamics, cost-benefit analyses, resource utilization, and more. Students can hone their management acumen with real-life case examples like these: When an advance in medical technology significantly improves the outcomes of a common procedure but triples its cost, can the needs of patients, hospitals, and insurers be reconciled? After a collapse in leadership in the face of unrest among internal staff and external service providers, can a new hospital administrator implement a culture change to introduce greater transparency and a self-management learning style? A hospital merger requires consolidation of duplicated services and careful scrutiny of a premier burn center whose continuation or closure has financial, community, and organizational ramifications. Deciding whether to remove an entrenched founder and CEO from a national 400-facility, multi-level long-term care health system that is in a downward financial spiral poses significant challenges to its board of directors. The leadership and strategic planning required to manage rural hospitals emerges as a new CEO tries to turn around a struggling facility's fiscal picture and solve chronic physician recruitment problems against a backdrop of local concerns. Providing an exceptional framework for classroom discussion and practice in decision making, *Cases in Health Services Management* is an outstanding casebook for capstone and issues courses and a valuable supplement for health services courses in organization and management, strategic planning, finance, and marketing.
