ZOMBIE CANDY (ANNIE OGDEN MYSTERY 2) (PAPERBACK)

Createspace, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.If you wouldn't dream of ever reading a zombie book, *Zombie Candy* might be for you. Did you ever get the feeling your partner changed overnight with no warning? Research shows this befalls women much more often than men. You stand there thinking, I have to spend the next thirty years with this moron? Fact is, there are 10 sure signs you're married to a zombie. He gives short guttural answers like I dunno, or Unh uh, when you'd like to have a conversation. The TV is more important to him than listening to you. MUCH more important. He consults his iPhone repeatedly during meals. When he gets home from work, too tired to talk, he just wants a beer. He doesn't come home from work till late, and claims his phone was dead. He criticizes your cooking by putting cilantro (or hot sauce, or pepper) on everything you serve. He falls asleep during lovemaking, just when you're about to start feeling something. If you want to watch a movie together, you have to sit through his zombie movies. He thinks it's normal to watch them again and again. He flatly refuses to watch romantic movies. 10. He doesn't even notice your new clothes, shoes or hairstyle, much less say anything nice about them. *Zombie Candy* is a case study of the modern zombified husband. Note to zombie freaks: there are NO REAL ZOMBIES in this book. Note to lovers of a good satire, with elements of mystery, and the romance of a vacation in beautiful Tuscany, you will be entertained. As a professional cook who gives cooking classes, Candace is...
